

TESTIMONIAL – John Stallan, HD Consultants

I approached John regarding the possibility of him assisting me with a re-mortgage and debt consolidation, after my wife was no longer able to work due to her health. John was more than happy to meet with me to discuss our requirements.

I had my initial meeting at offices in Colchester, where I was made to feel very welcome, and the entire process was fully explained to me, so I could be left in no doubt as to what could be achieved and the processes involved. After providing all the necessary initial information, John was able to show me some very promising illustrations of what might be achieved – I left the meeting feeling very positive and hopeful.

Over the next two months John worked diligently and with upmost professionalism – to say my wife and I were giving him a challenge, may be understated! John did not appear concerned by any of this, ensuring all areas were fully covered regards any requirements requested by lenders.

On the 21st June I received notification of a confirmed offer from a lender – you could say John had won our case!

I had a further meeting with John to ensure suitable life, critical illness and income protection cover was also put in place – again, diligently dealt with and excellent cover provided.

At the original meeting, I said if John could manage to arrange something that would leave us with at least two to three hundred pounds per month spare, I would be very happy. John has reduced our monthly outgoings by £1,076 – my wife and I personally think John is a miracle worker!

We would have no hesitation in recommending John and HD Consultants to anyone needing financial lending services, he has truly changed our life for the better!
